- Vite
- .NET Framework
- PostgreSQL
- Docker
- BitBucket
- Visual Studio

FEATURES

- Document Storage
- Signed Document Rendering
- Document Builder

Client Profiles & Email Delivery

CLIENT

Project Manager:

Josh Rittenhouse

Mentor: Gabe Chandler

CONCLUSION

This project taught us the importance of a balanced connection between the frontend and backend. Working on such a large and detailed application also highlighted the value of planning, design, clean code, and consistent testing.
